WHELPLEY'S PATENT
LONG REACH LEVER CLUB AND SPEED SKATES.

W. M. CALDWELL,
◆ **HARDWARE COMMISSION MERCHANT,** ◆
101 CHAMBERS STREET.
Sole Agent for the United States. NEW YORK, N. Y.

Perfect in Quality, Simplicity & D.

IMPOSSIBLE FOR ANY PART TO BECOME LOOSENED OR LOST.

Faultless in Construction, Perfect in Action.

It is with the utmost confidence we call attention to Whelpley's Patent Long Reach Club and Speed Skates, knowing full well that only a trial is needed to produce the most thorough conviction that this skate has no equal. The invention is the outcome of over twenty years labor and experiment on the part of Mr. Whelpley to produce a Skate perfect and faultless in every particular.

Should you order and upon examination the Skates do not please, you may return them and we will remit the amount paid by you. In ordering be careful to give the exact length of your shoe and write your name and address plainly.

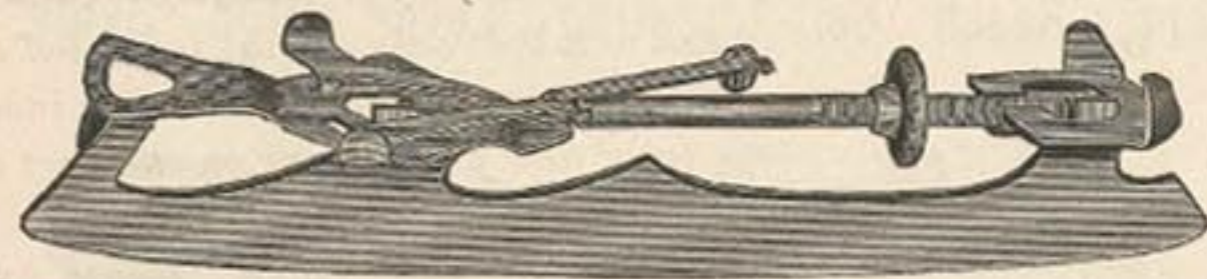

Where Skates are to be sent by mail add 25 cts. for postage. Remit by Post Office orders.

W. M. CALDWELL.

101 Chambers Street,

Sole Agent for the United States.

NEW YORK CITY.

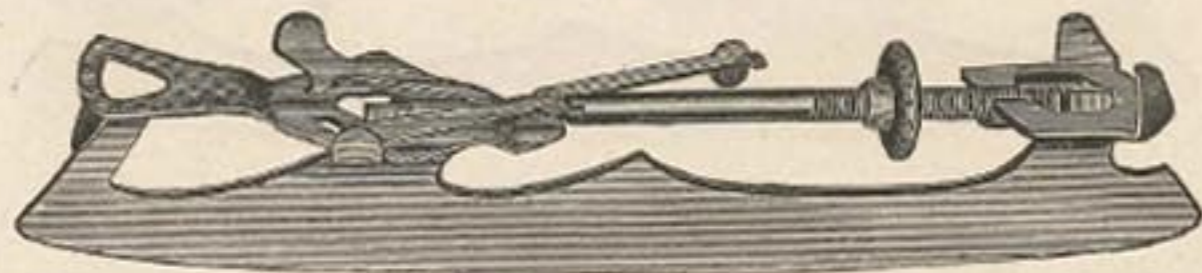

The most simple and effectual Self-Fastening Lever Skate ever invented. Can be adjusted to the foot instantaneously. The grip on the sole or heel can be tightened or loosened without removing the Skate from the foot. There is absolutely nothing that can get out of order. No bolts, nuts, screws, clamps, links, or other parts to lose or become loosened, consequently no liability to the aggravating interruption of enjoyment while skating from loss of parts, or vexation in trying to replace them. No Wrench or Key is needed in adjusting the Skate; in fact, the principle of fastening is faultless.

We do not attempt to compete in price with inferior Skates, as the material we use and the workmanship are the very best that can be obtained. The durability, freedom from need of repair, and excellency of quality, make our skates at the reasonable price we charge, cheaper than any first-class Skate in the market.

Long Reach Self-Adjusting Lever Club Skate.

—No. 5.—

The Foot Plates, Adjusting Rod and Lever are made of first quality Steel.
The Runners are cut from best Cast Steel, highly polished.

No. 5. BLUED, - - - Price, per pair, \$ 2.75.

To adjust the Skate to the foot throw the Lever all the way open, hold the Skate on the foot, run the nut down on the bar until it nearly touches the inside of the boot heel, then close the Lever down over the bar.

Long Reach Self-Adjusting Lever Club Skate.

—No. 7.—

Sizes, 8 8² 9 9² 10 10² 11 11² 12 Inches.

The Quality of this Skate is equal to any we make.

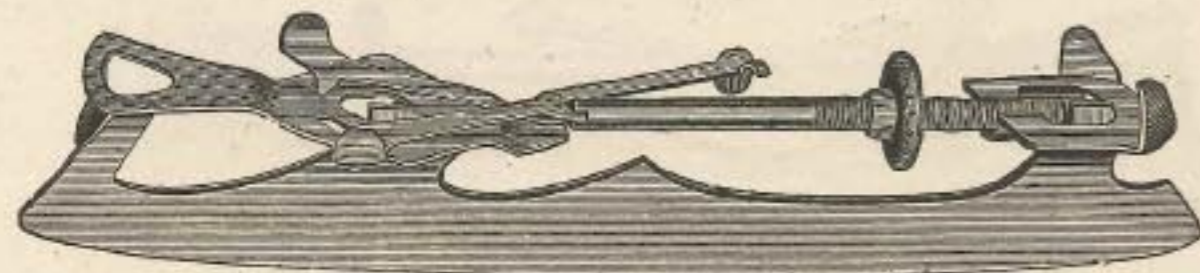

The Foot Plates, Adjusting Rod and Lever are of the Best Crucible Steel with polished edges.

With Runners of finest Steel thoroughly welded and highly tempered, handsomely finished.

No 7 BLUED, highly tempered and warranted, Price, per pair, \$4.00.

Long Reach Self-Adjusting Lever Club Skate.

— No. 10. —

Sizes, 8 8² 9 9² 10 10² 11 11² 12 Inches.

This Skate is same Quality as No. 7.

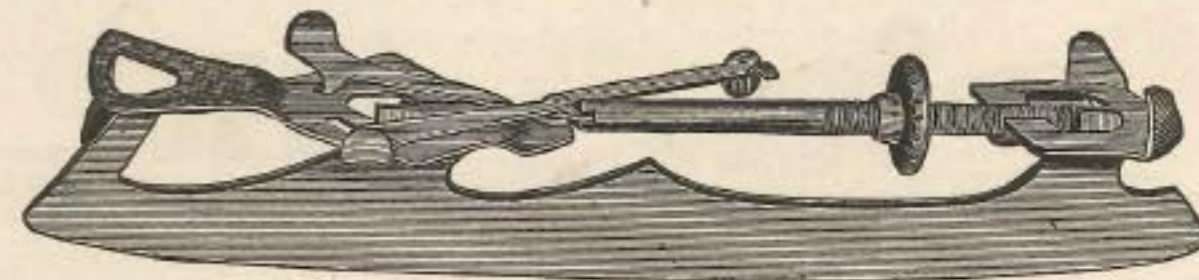

Finely Finished and heavily Nickled.

No. 10, Nickled, highly tempered and warranted, - - - Price, per pair, \$5.50.

Nothing that has yet been patented equals this Lever Fastening.

Long Reach Self-Adjusting Lever Club Skate.

— No. 12. —

Sizee, 8 8² 9 9² 10 10² 11 11² 12 Inches.

This is also of same Quality as No. 7 and 10.

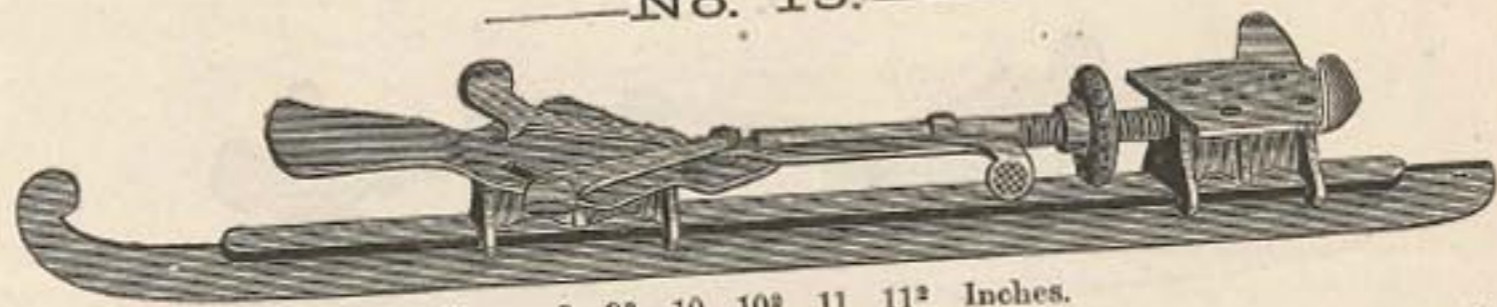

With Tops fully Polished and Nickled.

No. 12, Polished and Nickled, highly tempered and warranted, Price, per pair, \$6.50.

The Adjusting Lever is simple, durable and perfect.

Long Reach Lever Speed Skate.

No. 15.

Sizes, 9 9² 10 10² 11 11² Inches.

This is our Celebrated Self-Adjusting Speed Skate with very low runner. (See Cut) Manufactured from best quality Steel, thoroughly welded and highly tempered, ground and finished by patented process, all polished and nickled. The best speed Skate known, used by the most noted fast skaters in U. S. and Canada. (See letter of G. D. Philips, Champion Amateur Skater of U. S., on opposite page.

No. 15, Lever Speed Skate, Polished, Nickled and Warranted, Price, per pair \$8.50.

COPY OF LETTER FROM

G. D. PHILIPS,

CHAMPION AMATEUR SKATER OF THE UNITED STATES.

In regard to JAS. A. WHELPLEY'S

PATENT LONG REACH SPEED SKATES.

Nos. 31 & 33 Broad St., New York, Feb. 6th, 1885.

J. A. Whelpley, Esq.,

Dear Sir:

Your favor, Jan. 31st, at hand. I must admit that my success in the Championship races is largely due to the use of your "Long Reach Skates." I have tried all kinds of speed skates, including the Standard English, used by the National Association of England, the Norwegian, such as Paulsen uses, and the Newburg, made by Donohue, but can get more speed with less waste of power out of yours.

In my opinion they are made on the right principle and altogether the best skate in the market.

Very truly yours, G. D. PHILIPS.

MEMORANDUM.
