HOCKEY Made in flat and key locking. Canadian pattern is by means of screws.

RINK Intended for use in key lock flange runners.

RACING Specially designed for light and strong. Specialness of edge.

GENERAL DESCRIPTION

"U.S." Ice Skates are the supreme result of 30 years of experience in skate making. Our aim, ever since the inception of the business, has been to make the finest line of skates that it was possible to produce. And we confidently submit the perfected product for your consideration.

All of our skates are made to stand the hardest kind of wear and tear that skates can be subjected to. We try to make the "U. S." Skates so good—from all standpoints—that there will be absolutely no chance for any disappointment on the part of either the dealer or the consumer. They are intended to give the best value and highest satisfaction.

We venture to claim that, in quality of material, strength of construction, accuracy of mechanical parts, and beauty of finish, "U. S." Ice Skates represent the finest example of skate construction in the world.

We make all the standard styles of Ice Skates, which may be divided into four general classes.

CLUB Made in both lever locking and key locking styles. Fitted with adjustable toe and heel clamps, which may be extended and contracted at will. A secure and positive lock is insured.

HOCKEY Made in flat and flange runners. In lever locking, key locking, and Canadian patterns. The Canadian pattern is permanently attached to the shoe by means of screws.

RINK Intended for use in rinks and for fancy skating. Made in key locking style only, with curved and flange runners.

RACING Specially designed for fast skating. Made extra light and strong. Warranted to retain their keenness of edge.
